## REVITALIZE PROTOCOL

1. Clean, sterilize and apply anesthetic topical cream to the chosen area to be treated.
2. After 30-60 minutes check if the area is numb. Remove topical cream with gauze and warm water. Exfoliate the area with a double cleanse, sterilize area and blot dry. Protect patient using appropriate means of covering like gauze, micropore tape and head-band.

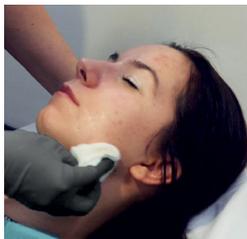

3. Mix the content of 2 ampules into a vial of My Filler Revitalize Pure.
4. Shake until an homogeneous emulsion forms.

5. Apply the product at area being treated with a cotton bud or gauze.
6. Choose depth on the micro-needling pen to maximum depth for the areas following (1mm face and 2-2.5mm body) and begin to stamp the mesotherapy product into the skin covering all areas.
7. Apply another layer of mesotherapy product.

8. Reduce pen depth to half previous chosen. Create rows vertical and horizontal to cover all the areas.
9. Apply another layer of mesotherapy and repeat using 's' sweeping motions with the Revitalize to cover all areas.
10. Apply the remaining mesotherapy product liberally all over with cotton bud or gauze.

11. A mask can be used to relax the skin for 5 minutes.
12. Blot the area dry with a tissue.
13. Apply moisturizer and/or SPF cream.
